Thursday, 7th March

Time (CET)	Room	Topic	Moderator(s)	Speakers
09:00 – 11:30	Vesterhavet 1 & 2	Academy Session 3: Looking ahead In this session we will build on Session 2 and discuss solutions to the issues raised, including the development of specific tools for indigenous populations. We will also discuss various approaches to extend the use of EQ-5D in different populations and settings. This includes major EuroQol Group led research programmes, such as bolt on development and testing, and exploratory initiatives such as the testing of different recall periods, and development of dimension specific 'deep dive' modules . We will also discuss the next steps for the EQ-HWB, and approaches taken by other instrument development groups.
